Frontend Developer

A Passionate Web Developer with 3+ years of experience in an e-commerce startup, specializing in web development, UI design, and debugging. Proficient in Vue, React, and Firebase, I achieved a 15% reduction in code redundancy by creating reusable components. I thrive in both independent and team settings, eager to learn and innovate.

WORK EXPERIENCE

Quinbay

Bengaluru, India • 06/2021 - 05/2024

Senior Software Developer • Full-time

- **Reduced** code redundancy by 15% through the development of reusable components, such as a MultiLevel dropdown and Autocomplete input bar, enhancing overall code efficiency.
- **Enhanced** team productivity by developing a ChatGPT VSCode plugin, reducing code testing time by 73%, from 1 hour and 20 minutes to approximately 22 minutes, while ensuring consistent, high-quality results.

Software Developer

- **Led** the migration from Vue 2 to Vue 3, achieving a 2-5x improvement in build times by switching to Vite instead of Webpack.
- **Facilitated** seamless onboarding and knowledge transfer (KT) for interns, effectively explaining all features and achieving a 100% conversion rate to developer roles.

PROJECTS

Blog Page

11/2022 - 12/2022

Personal Project

Passionately created a blog page using Firebase in just 15 days, immersing myself in key concepts like Google Auth and Firestore. My major takeaway was mastering Firebase, which has greatly enhanced my web development skills and confidence.

Cow Bull Game

09/2022

Personal Project

I created Cow-Bull, a code-breaking game where players guess a hidden 4-digit number. Players receive feedback on "bulls" (correct digits in the wrong position) and "cows" (correct digits in the correct position) to help deduce the number, making it a fun and challenging experience for all ages.
